DCM CHALK-STIK™
REMOVABLE
CHALKBOARD VINYL

Facestock: Black, Phthalate-Free, Embossed Vinyl

DCM Chalk-Stik's black, embossed, vinyl face is designed to accept regular chalk just as a chalkboard would. Chalk-Stik's tough, durable film can be easily wiped clean and resembles the look and feel of a real, slate chalkboard.

DCM Chalk-Stik is available in a 5.0 mil black facestock.

Adhesive: Proprietary Removable/Repositionable System

Chalk-Stik features DCM's Magik-Stik adhesive system; a proprietary, water-based formulation that is perfect for applications that require both superior tack and clean removability. This adhesive works great on a variety of surfaces such as painted drywall, glass, metal, sanded wood (w/o lacquer), and most any non-textured or non-porous wall.

The minimum application temperature for DCM Chalk-Stik is 40°F, with a service temperature range of 40°F to 120°F.

Liner:

DCM Chalk-Stik is available on a variety of different liners to suit your project's individual needs.

		Stocked Liners				
		50#	78#	83#	92#	8 Pt.
Facestock:	5.0 Black	X	X		X
