

Ideal Application Surfaces for DCM MAGIK-STIK™

Best Installation Surfaces:

- Smooth, non-textured, matte painted drywall/sheetrock.
- Smooth, non-textured, gloss painted drywall/sheetrock.
- Other smooth, non-textured, non-porous surfaces such as glass or metal.

Other Installation Surfaces:

- Any smooth, non-textured wall paper.
- Flat, smooth, finished wood surfaces such as paneling or doors.

Surfaces NOT Recommended for Application:

- Textured wallpaper.
- Textured walls (speckled, orange peel, etc.).
- Cinder block or brick.
- Unpainted drywall/sheetrock.
- Outdoor wall surfaces.
- Any surface that is uneven, rough, or porous.
